Mitek Releases Cutting Edge Mobile Docs™ For Faster and Easier High-Res Digital Document Submission

Solution auto-captures scanner-quality documentation in seconds using a mobile device camera

SAN DIEGO, Calif. and LONDON, July 11, 2017 (GLOBE NEWSWIRE) -- Mitek (NASDAQ:MITK) (www.miteksystems.com), a global leader in mobile capture and identity verification software solutions, today announced the release of a groundbreaking update to its [Mobile Docs™](#) solution. The new Mobile Docs allows consumers to quickly and easily, scan and send high-resolution document images for a loan or any other document intensive process, from anywhere.

"Global organizations in the financial services, insurance and education industries require volumes of documentation to verify a user's identity, income and residence," said James DeBello, Chairman and CEO, Mitek. "The superior Mobile Docs solution now provides an even better end-to-end digital process for capturing these trailing documents."

The new Mobile Docs innovations include:

- | The ability to auto-capture high-resolution documents of any shape and size
- | Simple and intuitive user interface featuring [Mitek MiSnap™](#) to auto-capture the best possible image
- | Integration with Mitek's leading [Mobile Verify™](#) solution to add residency documents to a dossier
- | Fully customizable user experience that organizations can tailor to fit their brand and workflow
- | Advanced security features to ensure personally identifiable information (PII) and captured images are never stored on the mobile device
- | Cross-platform support for iOS, Android and the Mobile Web
